# **MULTIFUNCTION RECHARGEABLE WORKLIGHT**

**ULTRA BRIGHT 250 LUMENS**

## **INSTRUCTION MANUAL**

**Model: CTL1284**

# IMPORTANT SAFEGUARDS

---

When using electrical appliances, in order to reduce the risk of fire, electric shock, and/or injury to persons, basic safety precautions should always be followed, including:

## FOR YOUR SAFETY

---

**Read all instructions carefully, even if you are quite familiar with the appliance.**

- A damaged 240 V charging unit can lead to a deadly electric shock. Do not use this product if it appears to be damaged.
- Do not look directly into the light source or point it into the eyes of others. This can lead to retinal damage.
- Charge the battery only with the original 240 V charging unit or the original 12 V Vehicle charging cable.
- Disconnect the Multifunction Rechargeable Worklight from the mains when the lamp is charged or the unit is no longer in use.
- Cease to use the Multifunction Rechargeable Worklight immediately if it begins to visibly smoke or give off unusual smells.
- Do not throw the charger into fire and do not expose it to extreme heat. The charger could explode or burst.
- Do not attempt to alter or manipulate the Multifunction Rechargeable Worklight charger in any way. Doing this increases the exposure to danger significantly.
- Magnets can delete data from hard drives. Keep magnets away from all types of data carriers.
- The Multifunction Rechargeable Worklight is not watertight and unsuitable for use in damp environments.
- Do not allow this appliance to be used as a toy. Close attention is necessary when used nearby children.
- Do not use with damaged cord or plug.
- Do not handle charger or appliance with wet hands.
- Do not unplug the charger by pulling on the cord.

- Never carry the charger by the cord or to disconnect from an outlet; instead, grasp the charger and pull to disconnect. Do not pull cord around sharp edges or corners.
- Do not immerse the appliance, charger and cord in water or any other liquid.
- Use only the charger supplied with this appliance to recharge this appliance.
- Do not attempt to use the charger with any other product.
- The use of an extension cord is not recommended. Only plug the charger into a standard electrical outlet (240V outlet).
- Do not operate with a damaged charger and cord, or after the appliance has malfunctioned or been damaged in any manner.
- Do not allow children to play with the packaging materials.

---

**Note:** Use only the charger supplied with this appliance to recharge this appliance.

---

**WARNING:** If the power cord is damaged, the power cord must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard. This product has not been designed for any uses other than those specified in this booklet.

# FEATURES OF YOUR MULTIFUNCTION RECHARGEABLE WORKLIGHT

## OPERATION

### Charging

Before initial use, please charge the rechargeable battery for the Multifunction Rechargeable Worklight fully, this typically takes 6-8 hours.

1. Connect the charging cable to the Multifunction Rechargeable Worklight charging socket.
2. Connect the charging unit to the 240 V mains supply or the vehicle charging cable to a 12 V vehicle charging socket.

### Overcharge and over discharge protection

This unit is fitted with a safety protection device for battery overcharge and over discharge which automatically turns off when overcharging or over discharging, it can extend the life of the battery.

**Note: Always recharge this appliance after use to extend the life of the battery.**

## SWITCHING THE MULTIFUNCTION RECHARGEABLE WORKLIGHT ON AND OFF

Never use a damaged product.

By controlled repeated pressing of the ON/OFF switch, the Multifunction Rechargeable Worklight can be set to perform the following functions in order:

High light, Low light and Strobe light.

**Notice: When the charger cable is connected with the charging socket, the lamp will immediately be switched off. Once the charging cable is removed, the lamp resumes its last selected function (High light, Low light, Strobe light or Off).**

# MULTIFUNCTION RECHARGEABLE WORKLIGHT FEATURES

1. The Multifunction Rechargeable Worklight can be attached to ferromagnetic surfaces with the holding magnets. **Caution!** A couple of holding magnets must have simultaneous contact so that the Multifunction Rechargeable Worklight is securely in place and does not fall down.
2. Hang the Multifunction Rechargeable Worklight from the hook.

## Area of Use and Performance Characteristics

The Multifunction Rechargeable Worklight is a practical aid for working on vehicles or around the house.

The basic characteristics are:

1. High luminous efficiency and low energy consumption with LED technology
2. Wide-ranging lighting with 52 LED power
3. Selectable precision lighting
4. Mobile use with rechargeable battery operation
5. Powerful Lithium Ion rechargeable battery
6. Practical attachment options with the mounted magnets and hanging hook.
7. Long lighting times and durability
8. Impact and shock-resistant

## TECHNICAL DATA

240 V Charging unit	Input voltage 240 V AC, 50Hz Output voltage 6 V DC, 300 mA
12 V vehicle Charging cable	Input voltage 12 V DC
Rechargeable battery	3.7 V, Li-ion, 1800 mAh
Charging time	Max. 6-8 hours
Lighting duration	Low light approx. 8h High light approx. 1.5h

Dimensions	Approx. 15.2x13.4x19.5cm
Weight	425g
Protection class	IP 20 compliant with DIN EN60529

## CARE AND MAINTENANCE

Switch the device off and disconnect the charger from the socket before cleaning.

1. Charge the battery every six months until the green LED illuminates, even if the Multifunction Rechargeable Worklight has not been used.
2. Clean the product with a soft, dry cloth. Do not use any form of abrasive cleaner or solvents to clean the unit. Never dip the Multifunction Rechargeable Worklight into liquids.
3. Store the Multifunction Rechargeable Worklight in a clean, dry and dark place. Do not expose the Multifunction Rechargeable Worklight to temperatures of under -15°C for long periods of time.

**Caution: Never use a damaged product (e.g., worn cable, cracked casing).**

## DISPOSAL

Do not dispose of packaging or the product through your household waste! The product and packaging are made from recyclable materials (plastics, metals, paper).

If the product is no longer suitable for use dispose of it in an environmentally friendly manner in accordance with your local council.

**Warning: Dispose of used batteries according to your local environmental rules and regulations.**
